

## Traffic Speed Analysis for the B4640 road in Newtown and Burghclere - April 2024.

The data shown below was supplied by Hampshire County Council using their traffic flow measurement equipment, sited along the B4640 towards the junction with the Tothill Roundabout.

This equipment does not capture optical images and cannot be used for prosecution purposes, but it does measure the speed of different types of vehicles as they pass through radar like beams. This enables Hampshire C.C. to differentiate between vehicles such as motorcycles, cars, cars with trailers and trucks. The data is normally used to assess average traffic speed and traffic flow patterns. However, in response to a Freedom of Information Request, Hampshire Highways have kindly provided a months' worth of data showing average AND maximum traffic speeds along this road and in addition they have extracted information specifically on motorcycle speeds travelling northbound and southbound along the road.

*Newtown PC. and Burghclere PC. are extremely grateful for the help provided by David Wilson and his Implementation team at Hampshire C.C.*

### Summary.

**Table 1** shows that average traffic speeds recorded in hourly bands is broadly in line with the 50-mph speed limit set for this road, though with noticeably higher average speeds (rising to 8% above the speed limit) during nighttime hours and early evenings. (highlighted in yellow).

**Table 2** shows that there are a significant number of vehicles which travel along this road at speeds far exceeding the 50mph speed limit (again highlighted in yellow) **Speeds at or above twice the 50-mph limit were recorded in April 2024 on many occasions, particularly at weekends.**

**Tables 3 and 4** show the extracted top speed data for motorcycles and clearly evidence what residents have complained about for many months – that the B4640 is being used for motorcycle races and/or time trials and at speeds which are a danger to the lives of the motorcyclists themselves and a danger to other road users and residents.

**This data provides clear evidence that there is an urgent need for enforcement action to be taken to stop this anti-social and dangerous behavior. This enforcement action should be implemented as quickly and effectively as possible.**

Tom Reseigh, Newtown Parish Council, May 14<sup>th</sup>2024.
